Resources for Bishop Wilkinson Catholic Education Trust

Diversity Data

Report Date: 23/07/2026

Percentage of members completed: 39%

How and why the report was generated: The national census data included in this report gives a comprehensive overview of diversity on a country-wide scale. This is to support you to contextualise and reflect on the diversity of your organisation. While the census data shouldn't be treated as a benchmark for a 'level' of diversity your organisation needs, it can be a valuable tool for prompting questions about your organisation's make up. By reflecting on these figures, boards can foster a more inclusive culture and identify areas for improvement in their diversity and inclusion practices.

A note on this report: The data for this report was provided on the basis of consent and was accurate at the time of downloading (see date above).

The report contains anonymised data for all boards in this organisation. It only includes information about people allocated to a board's constitution on GovernorHub.

To ensure anonymity, the report will only be generated if a minimum threshold of members have filled in their personal information on GovernorHub. Data for each characteristic within the report will also only appear if this threshold is reached.

We designed this report to enable you to compare the diversity of your boards with the communities you serve. For this reason, it contains personal information for all *appointed posts* and, as such, may include duplicate responses where people sit on multiple boards. We also provide a different report without duplicates, to allow you to analyse the diversity of governors and/or trustees within the organisation as a whole.

For more information on **why we're reporting on diversity data, how we're collecting it** and how we're **keeping your data anonymous**, please visit our **help centre**.
